Designed to Delight

Evolution is a process achieved through relentless improvement and refinement. In Circle Fitness we continue to evolve by improving upon our strong durable chassis with features to increase usability. Our latest offerings include upgraded control panel which features rich selections making your workout tuning ever more effortless. To further improve the ease of adjustability we implement a hydraulic system and a new pedal straps to our exercise bikes. The new improvements represent our commitment to bring better service to you. The process of improvement will continue as in Circle Fitness we believe there can be no end to evolution.

Designed to Delight

Customize Program
Customize your workout routine with ease all with your touch of finger.

Workout Summary
Exercise report is presented at the end of your workout session.

TV / D-TV / DVD
The 10.1" TFT offers sharp image for your visual entertainment during your workout.

MP3 Player
You can enjoy listening to your favorite MP3 songs by selecting through touch screen menu.

Individual Program Buttons

Program buttons to quickly select the workout of your choice.

Ergonomic Storage

Large storage compartment conveniently stores water bottle and all accessories.

Cool Down

Feature to allow users to cool down before coming to a complete stop.

Fan

Multiple fan levels that provide cool breeze as you exercise.

Keypad

Numerical key pad for quick speed selection as well as convenient data input for programmed workout.

Quick Level

Numeric keys for users to quickly select incline or speed levels.

Quick Shift
The Quick Shift allows easy adjustment to speed or incline during workout. The convenient location of the lever maintains runner balance and posture during adjustment.

Smooth Deck
The Smooth Deck shock absorption system delivers a perfect balance between cushion and road feel to bring you the ultimate running experience.

18% Incline
Featured in M7200 Luxury is 18% Incline for users who demand rigorous hiking exercise.

M7200

Functional Console
The console offers large display LED readout, easy to use control menu and a storage compartment for accessories.

Ergonomic Design
The spacious storage area is designed to hold water bottle in place with additional storage compartment.

Comfortable Stride
The thick padded pedal along with silky smooth stride motion provide comfortable and pleasurable workout.

EP7000

U-Bar
Specially designed U-Bar for R7000 provides superior body support during high intensity workout.

Easy Strap
Pedal strap that can be easily adjusted with one hand while sitting on the bike.

Aluminum Rail
Special material on the seating rail offers extra structural rigidity to the system.

R7000

Multi-Positioning Handle Bar
The handle bar on B7000 is specially designed to accommodate workouts ranging from relaxed to rigorous. The soft gripped handle bar and the padded elbow rest provide comfortable support for your upper body during workout.

Easy Strap
Pedal strap that can be easily adjusted with one hand while sitting on the bike.

Hydraulic Seating
Adjust seat height via all new hydraulic system. It makes adjustment on seating position easy even when sitting on the bike.
